Two Ambulances Recorded at St. Paul PP in One Week

by Debra Braun
Education Director

Two women within three days in the middle of August were transported by ambulance from the St. Paul Planned Parenthood (PP). Both an ambulance and a firetruck arrived for an emergency on August 14 and an ambulance arrived on August 16. Radio dispatch recordings revealed that both women suffered from hemorrhaging, a common abortion complication that PP abortion mills are not equipped to control. (A video created by Operation Rescue of the two incidents is posted at operationrescue.org. It includes the radio dispatch recordings and excerpts from the August 14 video taken by Brian Gibson.)

Brian was one of the sidewalk counselors at PP on August 14. He stated that the woman transported to the emergency room that day was one that had refused his offer of help before she entered PP.

In 2018, there were at least seven ambulance runs to this PP and so far in 2019, there have been at least three. These are the ones we know about; there may have been others that we didn’t see because, unfortunately, we do not (as yet!) have enough sidewalk counselors and prayers supporters to cover PP all the hours it is open.

Discoveries and Cemeteries

The evening before the 7th National Day of Remembrance for Aborted Children, a horrific discovery was made public — the remains of 2,246 aborted babies, medically preserved, at the home of deceased abortionist Ulrich Klopfer in Illinois. Klopfer had been a notorious abortionist in Indiana, where in 2016 he had his license suspended for multiple state statute violations.

Efforts are being made by multiple pro-life organizations and several churches to receive the remains and have the opportunity to give these children burials. The county coroner currently has possession of the children’s remains. We certainly hope that this coroner will act far better than the Philadelphia coroner who refused to release the remains of children found in Kermit Gosnell’s abortion mill for a funeral and proper burial.

On Saturday, September 14, we conducted a graveside prayer service at Resurrection Cemetery as part of the 7th National Day of Remembrance for Aborted Children. This is where the remains of 13 babies killed by abortion were interred in January 1987 after the grisly discovery of their bodies in the trash dumpster behind the abortion mill in Robbinsdale. For the seventh year in a row, we came out to remember all killed by abortion. We prayed for those who had these children aborted. We asked for the conversion of those who work in the abortion industry. And we asked for God’s mercy on us all.

A primary reason for this Day of Remembrance is the recognition that with each and every abortion, no matter how early or late in the pregnancy, there are the remains of a baby. These bodily remains must be a reminder to us and to the world of the horrific reality of abortion. And because of this reminder, we hold out hope of ending this worst of human rights violations.

Pro-Life Action Ministries is an inter-denominational Christian organization dedicated to publicly defending the sanctity of human life, and saving lives from abortion, infanticide and euthanasia now through peaceful direct-action and educational projects. It was founded in 1981 by Michael Gaworski, fbp, and Paul O’Donnell, fbp.
National Day of Remembrance for Aborted Children

Central Florida Memorial
by Michele Herzog
Central Florida Branch Manager

With every single abortion, there is a human baby’s body left to be discarded by the abortionist. On September 14, we stood upon the ground of the former Aware Woman abortuary in Melbourne, Fla. where over 30,000 babies were brutally killed by abortion. The Lord miraculously shut this abortion mill down, and it was later bulldozed to the ground!

We mourned for those lost at that place, and the 61 million precious babes lost nationwide since 1973. Leading the memorial service was Pastor Bruce Cadle. Also speaking were Pastor Frank Campana, Pastor Bryan Longworth, Jay Rogers and Mark Hall.

These little ones will not be forgotten; they will be remembered. We pleaded with the Lord also to end this horrible holocaust of abortion which is a blight on our nation. May the Lord set the unborn free!

Help Keep these Billboards up near St. Paul PP!

Since the beginning of this year, Pro-Life Action Ministries has had two billboards up near the Planned Parenthood (PP) in St. Paul (taller building on the left in the first photo). The signs are back to back on a billboard between Hwy. 94 and PP (near the intersection of University Ave. and Vandalia St.)

Shown here are the updated versions recently posted. The one on the left is visible to most women going to PP and the one on the right can be seen by everyone leaving PP (it is visible from PP’s driveway). Option Line is a national bilingual (English and Spanish) pregnancy helpline answered 24/7. Through live chat, phone, text and e-mail, pro-life staff members provide support and encouragement to women and direct them to their nearby pregnancy help center for ongoing assistance.

Since 40% of the abortions done at this PP are by the abortion pill (“medical” abortion using mifepristone/RU-486), we wanted to make sure women were given one last chance to save their baby’s life through the possibility of reversing the effects of this deadly chemical! The abortionists do not tell women about abortion pill reversal and we don’t have enough sidewalk counselors to cover all the afternoon hours. In addition, even if a sidewalk counselor is there, often the women drive out far too quickly for us to tell them they might still be able to save their baby. (The information is in the brochures we offer, but some don’t take our brochures.)

A nationwide network of pro-life health professionals working with Abortion Pill Rescue (the organization that manages the abortion pill reversal program) has been successful in about 68% of reversal cases, resulting in hundreds of normal deliveries and healthy babies!

Please consider a donation to help keep these billboards up, informing the abortion clients at PP and anyone else passing this busy intersection. Finally, if you can sidewalk counsel at PP in the afternoon, we need you! Not only would you be reaching out to abortion clients leaving, but new abortion clients are arriving until mid-afternoon Monday through Saturday.
Personhood at the Beginning of Life

Pro-Life Action Ministries, along with the University of St. Thomas ProLife Center, sponsored Professor Maureen Condic, Ph. D., for a well-received educational presentation August 13.

Dr. Condic is an Associate Professor of Neurobiology and Anatomy at the University of Utah School of Medicine. Her primary research focus for the past 22 years has been the development and regeneration of the nervous system. During that time, her teaching has focused primarily on embryonic development. She was appointed to the National Science Board by Pres. Donald Trump in 2018 and has written two books exploring the nature of the human embryo from a scientific and philosophical perspective.

Dr. Condic is eminently qualified to state that “a human zygote is a human being.” She urged pro-lifers to continue to become educated on these issues in order to promote the message that 1) human life begins at fertilization and 2) that that individual has intrinsic value and dignity from the first moment of his or her existence, especially in the public-policy debates surrounding medical, research and reproductive technologies.

Abortionist Defends Daleiden’s Undercover Videos

As this newsletter goes to press, undercover pro-life investigators David Daleiden and Sandra Merritt of the Center for Medical Progress (CMP) are defending their work in San Francisco’s Superior Court. According to a September 18, 2019 article written by Lianne Laurence for LifeSiteNews (LifeSiteNews.com), one of the nation’s longest-practicing abortionists testified that the well-known CMP videos are accurate.

Called as an expert witness by Daleiden’s legal team, abortionist Forrest Smith stated that he has “hated” Planned Parenthood for “about 50 years.” He stated that not only are the undercover videos of PP and other abortion providers accurate, but that the reality is even worse, with PP abortionists altering abortions to extract live babies with beating hearts to obtain fresher, more intact organs to sell to researchers. These altered procedures also put the mothers at greater risk of harm, according to Smith.

“You can kill a human being, which I admit abortion is, but you have to do it in certain ways,” Smith said.

Smith testified that he was angered when the videos came out in 2015 and soon contacted Daleiden with the goal of exposing him “as a fraud.” But then he met with Daleiden and saw the videos and realized that not only was Daleiden exposing the truth, “he didn’t know the half of what was going on.”

Merritt and Daleiden are charged with 14 felony counts of recording confidential information without consent. On page 2 of this newsletter are several daily pro-life news sites where you can keep up with this court case and everything else happening in the pro-life movement.

So far this year, 60 babies have been documented saved through our ministry, but as the first two stories here reveal, there may be many other babies saved that we just don’t know about!

His “Pride and Joy”
By Debra Braun
Education Director

As sidewalk counselor Delsie and I were about to leave the sidewalk outside Whole Woman’s abortion center in Minneapolis on September 10, I offered literature to a young passerby. He very gladly took it, telling me that I had saved his little girl, who will be 2 on New Year’s! He said that he and his girlfriend were early in her pregnancy. He said I had saved, meaning that I didn’t know the baby is alive, and thanking me. I praise you Jesus! Thank you for intervening on behalf of this precious child!

Learned of Baby Saved through "Chance" Encounter at Store!
By Michele Herzog
Central Florida Branch Manager

While in Burlington Coat Factory on September 13 with my daughter, a young woman stopped me and said, “I know you!” I looked at her, and said, “Oh, how?” She said, “You stand in front of that abortion clinic don’t you?” I told her yes, and then she told me that I had talked with her there (AWHC abortuary)! I asked her if she kept her baby, as I then recognized her, and she patted her abdomen, and said, “Yes, I'm 18 weeks along, I kept my baby!”

We talked for a bit, and I gave her a big hug, and she thanked me. I told her to call me and we would stay in touch.

I was just so encouraged, and so was my daughter, and the Scripture that came to my mind so strong was 1 Corinthians 15:58: “Therefore, my beloved brethren, be ye stedfast, unmoveable, always abounding in the work of the Lord, forasmuch as ye know that your labour is not in vain in the Lord.” Once again, it shows me that we are just to be faithful servants, and the rest is in God's hands! We have no idea how many babies are alive today as we speak up for the voiceless in front of the abortuaries. Many women don't even let us know; they just leave, or keep driving by.

Thank you Lord for this young woman stopping me and letting me know that her baby is alive, and thanking me. I praise you Jesus! Thank you for intervening on behalf of this precious child!

“Ask to Hear your Ultrasound!”
Condensed from a report by Geri, volunteer sidewalk counselor

I don't think abortion clients know that they can ask to hear (as well as see) their ultrasound. When my eldest daughter was eight weeks, a doctor turned on the ultrasound. We were stunned. My husband had to sit down, he was so stunned—all he could say was, “Wow.” That heartbeat is undeniable proof of the life, humanity, and presence of another human being.

One day in mid-July, Karen was the prayer warrior on the sidewalk outside of the Robbinsdale abortion facility, and I was sidewalk counseling from the stand on our Chapel of the Innocents property next door. I put the sign above me in the stand that said, "Free Pregnancy Resources Across The Street". As the first couple got out of their car, I called out, “Good morning,” held out the brochure, and said that I had some helpful information. I called out that there was free help right across the street at the Robbinsdale Women's Center, and that they could get a FREE ultrasound there. I said, “Ask to hear your baby's heartbeat! Your baby has a heartbeat at 18 days past conception!” The escorts were trying to engage them in small talk, but I knew the couple could hear me. As

(continued on next page)
they went in, I also told them that an abortion ends relationships; relationships usually don't survive after an abortion.

About 10 minutes later the man came out to put items in the car. I called out, "Sir, there's a child whose life depends on you, you can save this life! Men protect children, that's what a man does." He did not acknowledge me, but I told him again about the free ultrasound and help across the street. Lastly, I told him that if he loved the woman in there, even if he just loved her as a friend, he would tell her not to have the abortion.

Thirty minutes later, this man walked out of the clinic with the woman. They got into their car, so I ran from the stand down to the driveway with a brochure. The woman was driving and she rolled down her window to take the brochure. As I gave it to her, I asked if she had changed her mind. She said "Yes, I did." I smiled and said, “Congratulations on your baby!” I told her there were a lot of helpful resources in the brochure, and most of all, I pointed to the Robbinsdale

Women's Center, and said that they could be seen right away.

They parked in front of the center and walked in. Karen and I continued praying the rosary for another 45 minutes. I am very confident in the care and support that the Robbinsdale Women’s Center gives. The couple received an ultrasound and confirmed their choice for life, expressing great gratitude for the help received. Praise God!

**“You Have a Good Man”**

*By Brian Gibson  
Executive Director*

A young woman came walking up the street and I approached her just before she got to the bank driveway closest to Planned Parenthood (PP). I offered her our literature and told her of the pregnancy resource center (Abria) nearby. I asked if she was coming for an abortion, which she affirmed. She told me that she has a supportive boyfriend. I asked if he would financially support her and the baby; she said yes. Asked her if he would feed the baby, again yes. Asked if he would diaper the baby, another yes. I told her she had a good man. She smiled and agreed. She then told me she had other circumstances. I said that I was sure she did and that those circumstances were difficult, but that they could be resolved with help from the pregnancy center. She then said she had four children. I gently corrected her and said, “You have five kids.” She even smiled at that.

However, I could not convince her to go directly to Abria and keep her from going into PP. She said she would only be a few minutes. She did not come back out by the time my shift was over so I relayed all this information to Stacy and Janine who take the shift after mine. This was about 45 minutes after she went into PP, leaving me very concerned that she went ahead with the scheduled abortion. But about an hour later, Stacy called, telling me she was standing outside Abria, having just brought the young woman over and that the baby was saved!
