Babies Being Saved Despite COVID-19 Pandemic!

by Debra Braun
Education Director

The abortion mills in Minnesota and central Florida have remained open during the COVID-19 pandemic and staff and volunteers with Pro-Life Action Ministries have continued sidewalk counseling and praying outside these killing centers, despite so-called “stay at home” orders by the governors of Minnesota and Florida. Although sidewalk counselors in a very few locations across the country have been arrested for “violating” their local orders, we have not had problems in Minnesota or Florida. In fact, the Lord has blessed us with an increase in babies saved recently! As this is being written (April 6), we have documented seven lives saved since March 17!

Across the country, non-essential, elective surgeries have been ordered postponed, yet abortion mills continue killing even though abortion advocates have always proclaimed that abortion is a “choice.” Now, they’re saying that abortion is an essential “time-sensitive” procedure that cannot be postponed. (Of course, if an abortion is postponed, the baby will continue developing, reach full-term and be born! Can’t have that, according to those who profit from abortion.) In addition, abortion advocates are exploiting the fear of some pregnant women concerning the current economic situation. A Planned Parenthood official in New York told BuzzFeed News that abortion “is essential and life-affirming, especially now when there is so much insecurity around jobs and food and paychecks and childcare.” Planned Parenthood Keystone in Pennsylvania has even requested donations of personal protective equipment (PPE) so it can continue doing abortions (which is the only procedure it is currently doing). In addition, House Speaker Nancy Pelosi and other pro-abortion politicians tried to include abortion funding in the COVID-19 relief bill before being stopped by Republicans.

Several states have halted abortions with their bans on elective surgeries, and of course, Planned Parenthood and other (continued on page 4)
Churches are Closed, Abortion Mills are Open

Call it insanity. But the insanity has been running amok for many years. As the foothold of killing defenseless children has continued to establish itself deeper into the fabric of American life throughout the decades, ignoring morality and science completely, unconscionable acts have taken place.

Today, with the outbreak of a pandemic crisis, governments all across the United States have protected and even enshrined the ideology of this child-killing in orders and edicts. And where any sense of simple common sense has been offered by a governor that imposes the same restrictions on the abortion industry as on the real medical community, the courts have been invoked to “protect” the “choice” to electively kill babies alive in their mothers’ wombs.

Meanwhile, our churches are closed. Through mostly voluntary closures across the nation and the world, the places of true health and healing are attempting to find ways to bring that true healing and health without endangering more lives by this invisible killer. Whether those closures should or should not take place is not the purpose of this commentary. But the closure of the abortion industry, which is consuming the scarce and desperately needed personal protective equipment for battling the coronavirus, should not even need a second thought, even by the many pro-abortion governors across the country.

Do not let the irony of this grave evil be missed on this point. So many are being ordered to make great sacrifices, from losing jobs to putting off surgeries to being unable to offer the sacrifice of communal praise before our God. Yet child-killing, the shedding of innocent blood as a sacrifice to Satan, is granted “essential services” status by so many in power.

While this continues, we must contact our public officials responsible for orders ceasing elective procedures and demand that the abortion mills be closed. Once this has passed, we must not forget how those same public officials acted with regard to abortion in this crisis.

What we need is courageous Christianity. Though all do need to take very seriously this deadly virus, acting in accord with measures that will help mitigate its spread and effects, no one who calls themselves by the name of Christ should be afraid. One theme that comes forward repeatedly throughout both the Old and New Testaments is “do not fear.” Our lives are with God. The life we lead is not to remain in this mortal life but to attain eternal life in Christ Jesus. Death cannot harm those who live in Jesus.

It is this courageous Christianity that changed the face of the earth and gave us all that has been good in western civilization, that good which has quickly disappeared in recent decades. With this courageous Christianity, by God’s grace, the face of the earth can once again be changed for good, bringing an end to attacks on the innocent and defenseless and ceasing assaults on truth and goodness.

Keep safe in this time. Keep up the social distancing and keep your household free from infection. But make the safety of your soul, and that of your family, far more important than the safety of your bodies and homes, even as important as those are in God’s good ordering (see Matt. 10:28). This is a great time to pray as never before, but as we always should. If we cannot be together in church, then let us be together spiritually as church.
45 Years of Killing at 825 S. 8th St., Minneapolis, Comes to an End

Whole Woman’s Abortion Center Moves from Downtown Minneapolis to Bloomington

Forty-five years of killing in the Parkside Professional Center, 825 S. 8th St., Minneapolis (across the street from Hennepin County Medical Center), came to an end when the last abortion mill located there moved out March 27. Hennepin County recently purchased that building with plans to use it in a future renovation of the hospital so Whole Woman’s (WW) abortion center had to move. As this newsletter goes to press WW was expected to re-open and begin killing in early April at 8053 E. Bloomington Freeway in Bloomington.

A rough estimate of 125,000 babies have been killed by three different abortion centers in the Parkside building since 1975 (see Timeline at the end of this article). For several years in the mid-1990s, there were two abortion mills in this building (Midwest and Meadowbrook) together killing about 32 babies a day. But many babies have been saved there over the years through the efforts of Pro-Life Action Ministries. We have prayed, picketed, sidewalk counseled, and held Good Friday Vigils there (see photo below). We also conducted two rescues (sit-ins) in this building — one in 1985 and one in 1989 (in which 153 people were arrested for trying to save lives).

Whole Woman’s is Minnesota’s second highest volume abortion mill, reporting 2050 abortions in 2018. Killing defenseless babies up to 23 weeks, 6 days, WW violated Minnesota law while selling aborted baby parts according to an undercover video of Whole Woman’s CEO, Amy Hagstrom Miller, at: https://plam.org/baby-parts-trafficking-by-minneapolis-abortion-mill/

Because WW’s new location is in the south metro, some of the sidewalk counselors who went to the downtown location from the north metro have decided to go to Planned Parenthood or Robbinsdale instead of driving to Bloomington. So, we need more sidewalk counselors and prayer supporters at the new location! We believe that a minimum of three sidewalk counselors will be needed for each shift. Please contact Bill Kelly, Sidewalk Counseling Coordinator, at 651-797-6365 or william.kelly@plam.org. There is plenty of free parking nearby.

Timeline:

1975 — Midwest Health Center for Women opens at 825 S. 8th St.

Mid-1990s — Meadowbrook Women’s Center moves from the Meadowbrook office building on the Methodist Hospital campus in St. Louis Park to this building.

October 1997 — Midwest moves out of Parkside to S. 5th St. in Minneapolis.

2012-2013 — Whole Woman’s purchases Midwest and Meadowbrook, consolidating them into one location in the Parkside building in the suite that Meadowbrook had occupied. Midwest’s location on S. 5th St. is closed.

March 2020 — Whole Woman’s moves out, ending a 45-year era of killing there.
Minn. House Considers Anti-Sidewalk Counseling Bill

by Brian Gibson
Executive Director

An anti-sidewalk counseling bill (HF 3749) was passed out of the House Judiciary Committee 8-7 on Thursday, February 27. This bill, pushed by abortion advocates, would interfere with the life-saving work of sidewalk counselors, particularly as we distribute literature to people as they drive into the abortion centers. Brian Walker, Program Director, represented Pro-Life Action Ministries very well in testifying against this bill at that hearing. Two other sidewalk counselors also spoke against it. Several pro-life Representatives, strong advocates for our work, were eloquent in their questioning of this bad bill.

Testimony in favor of the bill by the pro-abortion organization, NARAL, was filled with deceit, no surprise there. But it was especially so since that testimony was focused on the Robbinsdale abortion center where none of the alleged “problems” can occur because of a court injunction there. Had we ever done any of the activities NARAL claimed we did, we would have already been charged and found guilty of injunction violations. In fact, one of the pro-abortion people testifying said that the proposed law was meant to be “preemptive.”

Several organizations that do regular legislative work have confidently assured us that it will not go anywhere in the current state senate, stating that it will not become law, at least not in this legislative session. But we will keep a very watchful eye on this type of legislation. Thanks to all who who contacted your state representatives regarding this anti-free-speech bill. This is a reminder that elections have consequences. Find out where your candidates stand on abortion, and VOTE PRO-LIFE!

Pandemic (from page 1)

pro-abortion groups have sued, bringing their cases to their favorite appellate judges. As the cases are working their way through the courts, Texas and a few other states are abortion-free. In Minnesota, despite pro-lifers contacting the governor and state health commissioner, pro-abortion Gov. Tim Walz specifically exempted abortion (“reproductive health care”) from the ban on elective procedures. (He threw in “childbirth services” as an exemption also, as if a normal birth could be postponed with his order!) In Florida, pro-life Gov. Ron DeSantis has not ordered abortion centers to close. However, according to Michele Herzog, the Manager of our Central Florida Branch, the AWHC abortion center there closed for an undetermined time period beginning on April 4 because an employee tested positive for COVID-19. Just the day before, the first day of Gov. DeSantis’ “stay at home” order, Michele and others sidewalk counseled outside AWHC, praying fervently that place of death would close! Also, a woman left smiling, saying that she was reconsidering her decision to abort. Pray she would definitely choose life!

Babies Saved

So far in 2020 by the grace of God, 28 babies have been saved through the efforts of Pro-Life Action Ministries, including seven since the COVID-19 pandemic started in mid-March! (See page 1.) Following is a dramatic story from our branch office in central Florida.

by Michele Herzog,
Central Florida Branch Manager

As I was walking up the sidewalk to minister at the AWHC abortuary on March 10, Shirley Jo, one of the sidewalk counselors, walked up to me hurriedly with concern in her face and said, “There is a battle going on!” By that time I was up to the driveway, and Shirley Jo pointed to a car in the parking lot close to the front door, and I began to hear screaming and yelling coming from said vehicle.

Shirley Jo explained that the woman who was yelling was directing her anger toward the abortion-bound young woman in the car and pressuring her to have this abortion, and had been all morning. Once during the time that they were there, the young woman got out of the car and walked down to take a brochure from Shirley Jo, who offered much help to the young lady. She then walked back up and got back into the car.

A short time later, she got out of the car and walked back down to Shirley Jo, opened up the brochure, pointed to the graphic suction abortion image, and asked, "What is this?" Shirley Jo explained that it was the remains of an aborted baby at 10 weeks, and that there was a person specifically assigned to make sure every body part of the child that had been killed was accounted for, or else the woman could possibly die. The abortion-bound girl immediately told Shirley Jo that she was 13 weeks along and asked if her baby would really look like that and is that really true. Shirley Jo responded, “Yes.” The young lady was horrified, and walked back up to the car.

At that point the screaming and yelling began again, and this is when I had arrived. Soon after, she got out of the car and sat on the cement planter out front talking on the phone, or sitting there, which was quite a while. During that time, Shirley Jo and I continued to plead with her to leave “this place of death,” to protect her baby, that her baby was a precious gift from God created in HIS image, that God hates the hands that shed innocent blood, that God instructs us “Thou shalt not kill,” to please go next door for free help, and so much more! She then got back in the car, and the yelling and screaming from the other woman began again.

Shortly after, I went around back to see if the abortionist had arrived, and while there, I noticed a car coming around, and the woman who had been screaming jumped in the backseat of that car, and they bolted out of the abortion mill parking lot.

When I went back out front, I noticed the young lady in the car was now in the driver’s seat and was backing the car out, so I ran to the driveway, and as she drove past, she rolled down her window and said, “I’m not doing it!” with tears rolling down her cheeks. Shirley Jo was at the window now, and we both said that this decision was wonderful. I asked her what changed her mind, and she said, “the brochure (the graphic image),” and the words that had been spoken to her. I then asked her if she had any relatives for support and she said, "My mother. She didn’t even like that and is that really true. Shirley Jo that she was 13 weeks along and walked back up to the car.

This precious little girl was born in February. She was saved from a late-term abortion (21 weeks) at Whole Woman’s in Minneapolis last October after her mother received literature and practical help from our sidewalk counselors. She is very grateful she chose life!

St. Paul and Minneapolis Officials Honor Abortionists

By a vote of 7-0 on March 4, the St. Paul City Council declared March 10 “Abortion Providers Appreciation Day,” receiving a backlash from pro-life residents of the city, including Catholic Archbishop Bernard Hebda, who said, “As our nation is rightly concerned about preventing the spread of the COVID-19/coronavirus and caring for human life, I cannot help but be profoundly saddened and confounded that elected officials in both St. Paul and Minneapolis declared today ‘Abortion Provider Appreciation Day.’ Given that each human life is created in the image and likeness of God and has value, to honor those who purposefully end such life is an affront not only to our Creator but to the foundational values of civil society. There is no way around it – abortion kills children.”

Ironically, about the same time as the city council was passing this resolution, an ambulance was at the St. Paul Planned Parenthood picking up a woman who was hemorrhaging after, presumably, a botched abortion (see photo below).

Not to be outdone, Minneapolis Mayor Jacob Frey also recognized the day, mentioning the Whole Woman’s abortion mill in Minneapolis, calling it “an essential part of our community.” Not seeming to notice any disconnect, less than two weeks later, Frey and his wife joyfully announced the upcoming September due date of their first child while holding up an early ultrasound photo.
Work Continues on New PP Abortion Mill in Uptown Minneapolis

Construction continues on the new Planned Parenthood abortion center in Uptown Minneapolis (1200 Lagoon Ave., next to the Cub grocery store). Killing is scheduled to begin in this $14.4 million, three-story building later this year. Davis is the developer of the project with bdh+young as the architect.

We will keep you informed about this new abortion facility where we will be scheduling sidewalk counselors and prayer supporters. Please start thinking and praying now about how you may help save babies there and let us know if you are willing to go to this location when it opens.

Pray for . . .

Amy Hagstrom Miller

Amy Hagstrom Miller, 51, is the founder and CEO of Whole Woman’s Health which currently has 8 abortion centers in 5 states. She is from Minnesota, having worked at Planned Parenthood in St. Paul when she was a student at Macalester College in the late 1980s.

She is a frequent national spokesperson for the abortion movement and is very involved in litigation against pro-life laws (including the Whole Woman’s Health v. Hellerstedt case decided by the U.S. Supreme Court in 2016). She has bought and renovated 14 abortion centers. In fact, abortionists who are considering closing “know to give her a call,” according to Bloomberg Businessweek.

A “specialty” Hagstrom Miller once listed on her LinkedIn page was “making a good living doing something I love.” She has written, “It is my life’s work to end the stigma around abortion.” She has said that she was raised in a liberal Christian household and believes that Jesus would be holding the hand of the woman inside the abortion center.

Please pray for Amy that she would allow God’s grace to break through her false ideology and theology, repent and truly come to know the real Christ.

Listing Abortionists

A hallmark of our ministry has been confronting the evil of abortion with the love of Christ. This approach has included publicly identifying who the abortionists (and pro-abortion leaders) are. The practice of placing the names of abortionists in this newsletter has a twofold purpose: to ask for your heartfelt prayers for the conversion of those listed and to inform you so that you are not patients of those committing abortions.

The criteria for placing someone on this list is that the individual is directly involved in committing abortions and that this has been reasonably verified. We have resoundingly condemned any sort of physical or psychological threats to anyone involved in abortion. Our desire is for the love of God to permeate the lives of those associated with abortion, that they will turn away from the harm they inflict and become followers of Christ as so many before them have done. Please pray for the following abortionists:

**Minnesota**

Carol E. Ball, David Baram, Kristi Borowski, Robin Bresette, Steven Brown, Thomas F. Campbell, William Cliby, Peter D’Ascoli, Norman Davies, Sean Dowdy, Kathryn Eggleston, June Fahrmann, Abimbola Famuyide, Kimberly Fischer, Hope Frisch, Melvin Frisch, Lynn Hagedorn, Marilee Hanson, Rise Hatten, Judith Johnson, Liz Jordan, Beni Katz, Christopher Klingele, Frederick Kravitz, Mary Mahoney, Miriam McCreary, Catherine McKegney, George Miks, Judith Ney, Donna Randall, Carl Rose, Mark Tonz, Carrie Terrell, Sarah Traxler, Kenneth Trofatter, Dirk Van Oppen, Wendy White, Timothy Wilson, Merri Morris, Harvey Roth, James Pendergraft, Jose Raul Quintana, Frank Rodriguez, Christopher Saputa, Philip Waterman, Randall Whitney

**Is Your Doctor Involved in Abortions?**

Does Your Doctor Prescribe Abortifacient Birth Control?

Ask your doctor if he/she does abortions or refers for them, or prescribes abortifacients such as the Pill, Ortho Evra (the “patch”), Depo-Provera (the “shot”), Nuva-Ring, the “morning-after pill,” implants, or the IUD. All these methods (and others) can cause very early abortions by thinning the lining of the uterus so that if breakthrough ovulation occurs (which is possible) and a new life is conceived, the young human being may not be able to attach to the uterine lining and therefore he or she dies. These methods can also be very dangerous, even deadly, to the woman. If you would like the names of completely pro-life physicians, see www.onemosesoul.com/nfp-directory. In Minnesota, you may also call our office at (651) 771-1500.

**Natural Family Planning**

For information about the safe, effective and morally acceptable methods of Natural Family Planning (NFP), contact One More Soul at: 1-800-307-7685 or www.onemosesoul.com. One More Soul has resources to help people understand how children are a great blessing from God, and how contraception is very harmful to women, and their marriages, and consequently to families, Church and society.

Babies Saved

(from page 5)

want me to come today!"

I asked her how old she was, and she told us that she was 18 years old, and we both told her that she is brave and courageous to make this decision for life for her child, and to have fought for the life of her child while the person in the vehicle with her was pressuring and forcing her to have this abortion. She sat there and cried, and thanked us as we told her that we are here for her and that we would love to take her out for lunch and keep up with her. She then drove off with a smile on her face.

Shirley Jo and I, along with Kathy, who had just walked up and who is a faithful prayer supporter, just stood on the sidewalk and praised and thanked the Lord. We wept with tears of joy and knew that truly, a battle had been fought in the heavens, and the powers of darkness had been defeated, and this baby had survived this demonic onslaught against his/her life.

Never have I witnessed in all these years such pressure for someone to kill her baby, and when the mother refused, the acquaintance stormed out of there, so angry that the young woman wouldn't take part in the shedding of innocent blood. This was a miracle!

I just want to shout Glory Hallelujah, for the Lord allowing us to take part in this saving of a precious baby, and letting us witness HIS great and awesome powers! To HIM be the Glory, for HE has done great things!
