

## Since the *Dobbs* Decision . . .

by Brian Gibson  
Executive Director

It seems as if all the abortion demons from the pit of hell have been released on Minnesota. Below is listed some of what has transpired since the June 24 *Dobbs* decision:

- \* Governor Tim Walz issues “not on my watch” statement regarding any new abortion restrictions.
- \* Gov. Walz’s executive order, mostly

pro-abortion propaganda, states that no state agency will cooperate with any investigation into possible criminal charges against those having abortions, even though no state law prosecutes the woman having an abortion.

- \* Gov. Walz welcomes abortion organizations and women seeking abortions to Minnesota as if this is a new tourist attraction unique to Minnesota.
- \* Ramsey County Judge Thomas Gilligan ruling July 11. Remaining modest regu-

lations on abortion in Minnesota are removed. No parental notice for minors, no requirement that only licensed physicians commit abortions, no 24-hour waiting period, no informed consent, no information on the developing child (created by the Minnesota Department of Health) offered to the abortion client.

- \* Attorney General Keith Ellison, who sandbagged the case in the first place,

### Minnesota Becoming “Abortion Destination State”

## Fargo Abortion Mill Moves its Killing to Moorhead

by Tim Miller  
Executive Director, PLAM Action

After the landmark victory in *Dobbs v. Jackson* many people have asked me what this means for Minnesota. What has transpired in Moorhead since then presents a clear understanding of the “new normal” for Minnesota. I caution you, it isn’t pretty. But there is hope.

Even before the U.S. Supreme Court’s decision, an abortion clinic in Fargo named Red River Women’s (abortion) Clinic (RRWC) stated they would move to Moorhead if *Roe* were overturned. They kept their word. In about three weeks’ time using GoFundMe, they raised about \$1 million from across the U.S. and purchased an old office building in Moorhead with the intention to remodel it.

After *Dobbs* I immediately went to Moorhead and began an investigation of where the building was and its functional status, and I began to build a coalition of pro-life minded individuals and organizations. In just a few days we were able to determine the building RRWC had purchased and organized the team to stop

Several pro-life leaders and clergy spoke at a pro-life “tent meeting” across the street from the new location of Red River Women’s Clinic (RRWC) in Moorhead, Minn. on August 19. The keynote speaker was David Bereit, a national pro-life speaker, broadcaster and strategist. RRWC moved three miles across the border from Fargo, N.D. after the *Dobbs* decision because that state had a “trigger law” banning abortions after the overturn of *Roe v. Wade*.

them. The Catholic Dioceses from Fargo and Crookston joined us as did the Lutheran Church — Missouri Synod (LCMS) and 40 Days for Life. A couple weeks later we began a weekly prayer vigil outside the new location and started a community-driven campaign to stop them.

Red River Women’s (abortion) Clinic fought back by opening for business the following week despite the facility not even being renovated. Yes, they are performing chemical and surgical abortions in a disheveled building. Recently they

states he is unsure what he will do.

\* Gov. Walz publically admonishes AG Ellison to NOT appeal Gilligan ruling. AG Ellison announces he will NOT defend Minnesota laws by not appealing Gilligan ruling.

\* Both U.S. Senators from Minnesota, former Planned Parenthood Vice President Tina Smith and Amy Klobuchar, hold press conferences and issue several press statements supporting the killing of defenseless human beings.

\* Minneapolis Mayor Jacob Frey announces that Minneapolis is effectively a sanctuary for killing unborn babies.

\* Just the Pill, created in the summer of 2020, announces it will troll surrounding states' borders with mobile abortion vehicles to kill babies for women from those states.

\* Fargo's Red River Women's Clinic (RRWC) announces move to Moorhead, Minn. (see page 1).

\* Moorhead mayor welcomes move.

\* RRWC reaches \$1 million GoFundMe goal to renovate building in Moorhead to be a "medical clinic" for killing babies.

\* RRWC starts committing abortions in Moorhead building without renovations even starting.

\* Senator Tina Smith holds photo op at

RRWC.

\* An increase in out-of-state clients at the abortion facilities in Minnesota.

\* AG Ellison creates an open season on all pregnancy resource centers (PRCs) by issuing a "Consumer Warning" based on a report compiled by radical pro-abortion groups. Ellison's move includes a call that abortion activists will take up to complain about pregnancy centers. Offering alternatives to abortion is too much for the radical abortion movement which loathes PRCs. This may even embolden the vandals to more violence against PRCs. *(Editor's note — Three local pro-life offices — MCCL in Minneapolis and Birthright and Abria in St. Paul — have been defaced with threatening pro-abortion graffiti and have had windows smashed this summer.)*

I have spoken with other pro-life leaders in New Mexico, Michigan, Illinois, California and New York who have felt the same. The oppressiveness of the abortion movement seems to overwhelm.

### Follow us!

But our God is greater than all this!

We cannot lose sight of the hope we hold onto. It was by God's grace that the evil cloud of abortion covering our whole nation has been lifted. It is no wonder that throughout almost 50 years of *Roe v. Wade* that in many places that evil took deep root. This will not come out easily, but by God's amazing grace, it WILL come out. Our work has indeed increased in many places around the nation, but there have also been great victories, not possible under *Roe v. Wade*, in many states.

The fact that abortion has been made illegal in some states means that women will not abort their babies, no matter how easy the Biden administration or the governors of states where abortion is a free-for-all attempt to make it.

The work before us will be difficult and hard. How we feel regarding the onslaught of the abortion movement is nothing compared to those who are being killed by abortion. We must remain vigilant, prayerful and faithful.

Now is not the time to back down or cower as some might do. Now is the time to stand strong, courageous and bold for God and for His precious little ones.

### 40 Days for Life

By the time you're reading this, 40 Days for Life Twin Cities will soon be underway, beginning on September 28. Although *Roe v. Wade* has been overturned, sensible abortion restrictions in Minnesota have been removed by a Minnesota judge and the state has become an abortion destination state. More than ever, women need to see a peaceful prayer presence in front of Planned Parenthood's (PP) St. Paul Midway location (671 Vandalia St., St. Paul, MN 55114).

This PP is one of the largest abortuaries by volume in the country and is considered one of the flagship abortuaries within the abortion industry.

Since 2011, Pro-Life Action Ministries has held 40 Days for Life at this location with hundreds of participants over the years. Many of the participants have their church, organization, business or family participate in the ADOPT-A-DAY program. Forty Days for Life ends Sunday, November 6. There are still some ADOPT-A-DAY slots available. It's not too late to reserve one of the remaining days — today! All that's required is that you schedule two or more persons per hour praying on-site outside PP, between the hours of 6:00 a.m. - 6:00 p.m. Though

not required, we welcome pastors to come and pray with their congregation for at least an hour. We can provide signs and templates for graphics to help you market your event. Call to make arrangements.

### Caroling for Life

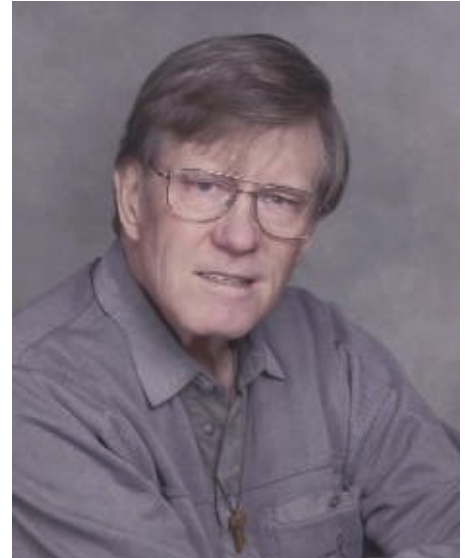

How's your singing voice? Can you carry a tune? Do you know someone or a choir who can? The Christmas season will soon be here. Advent starts on November 27. Caroling for Life will be held on Saturday, December 10, just 15 days before Christmas! More than a time just to get together to sing familiar Christmas hymns, it is a time of worship and praise to Jesus Christ and an opportunity to save the life of a preborn child. Over the years children have been saved as their mothers heard the gentle call of God via a familiar hymn.

We are recruiting individuals and choirs to participate at two abortion locations: Robbinsdale Clinic, Robbinsdale, and PP in St. Paul. You need not be a member of a choir but choirs are welcomed and musicians as well. Help us to recruit now so there will be a good turnout at both locations.

Contact me for more information about these events: (651) 797-6363 or [brian.walker@plam.org](mailto:brian.walker@plam.org)

*(Note — Caroling for Life is typically held in Duluth and Central Florida as well. Watch for dates and other details.)*

## In Loving Memory William Kelly 1949-2022

We recently lost a friend and co-worker in Christ. William "Bill" Kelly, our Sidewalk Counseling Coordinator, passed away unexpectedly Sunday, August 21, due to an aortic aneurysm.

Bill started sidewalk counseling in Michigan twenty years ago. After returning to Minnesota, he became involved with Pro-Life Action Ministries, sidewalk counseling once or twice a week as a volunteer prior to taking the job as Sidewalk Counseling Coordinator. Bill had been on staff the last four and a half years, coming out of retirement with great passion for the babies and their moms and dads.

Working tirelessly, Bill kept sidewalk counselors and prayer supporters on the sidewalks in front of Twin Cities abortion facilities so that as many lives could be saved as possible. He worked right up to the end, going out to sidewalk counsel early in the morning and corresponding with staff and volunteers into the evening the day before his death. He is deeply missed; may he rest in eternal peace.

**"If you faint in the day of adversity, your strength is small. Deliver those who are drawn to death, and hold back those stumbling to the slaughter."**

# Florida — A “Haven State” for Abortions!

by Michele Herzog  
Central Florida Branch Manager

After 49 years, and over 65 million little baby boys and girls brutally slain on the altar of choice, *Roe v. Wade*, the landmark Supreme Court decision which unleashed this bloodshed on our land, was overturned on June 24, 2022 and we praise God for this!

Since then, we have seen our nation polarized over this decision which brought power back to the states to decide the fate of the youngest in our nation, the unborn.

The stark difference in the states and the views of American citizens likens to a line drawn in the sand for and against freedom for the unborn.

Some states immediately either banned abortions, or put restrictions on this brutal act, other states expanded the so-called “right” to kill the unborn.

A packed parking lot outside the Planned Parenthood abortion mill in Orlando in late July

Unfortunately, and very sad to write, Florida has become a “haven state” for abortions!

In other words, the pro-abortion community has actually acknowledged that Florida is a “haven state” for women to

travel to for abortions if their state has banned this murderous act.

So, those of us ministering on the sidewalks in front of the abortuaries in the sunshine state, especially in central Florida and up, have witnessed women pouring in from other states to kill their innocent children, at a much higher rate than before!

Abortion-bound women from Georgia, Mississippi, Texas, Louisiana, and other states are heading to the sunshine state to carry out their plans to kill their innocent babies.

Instead of seeing a decrease in the number of abortions, there has been an increase, and this is so very sad to watch, and terribly disheartening when we have the opportunity to set the unborn free.

We must pray for our legislators here in the state of Florida, that they will truly act upon these crimes against humanity as the civil and human rights issue that it is, and we must restore personhood, protection, and the rights of all the unborn human beings!

Let us pray that we will be a state that is a safe place of refuge for the unborn, not a haven for abortionists to carry out their deadly deed!

Call your legislators, share your concern, and plead with them to work hard for the rights of all these babes in the womb, that they will once again have the same rights that you and I have, the rights to life, liberty and the pursuit of happiness. We pray this in Jesus’ precious name!

## Minn. Abortions Down by 203 Last Year

by Debra Braun  
Education Director

We will have to wait for nearly a year to see how the *Dobbs* decision has affected the reported number of abortions in Minnesota. The abortion reporting law is one law that Judge Thomas Gilligan did *not* strike down on July 11 (see page 1). Meanwhile, the 2021 statistics were released by the Minnesota Department of Health (MDH) on July 1.

The report showed that 203 fewer children were killed by abortion in Minnesota in 2021 than in 2020 (chart below).

Up until 2020, we had received additional specific data from MDH when requested. But the agency has not yet responded to several requests this year, citing the fact that it has been short-staffed. Therefore, we do not know how many of the abortions reported by Planned Parenthood (PP) were committed at each of its four abortion locations, how many abortions were done at the Mayo Clinic in Rochester, and how many abortions Whole Woman’s committed in-person as compared to its mail-order

### *“Watching Your Video is What Did it for Me”*

by Thomas Wilkin  
Sidewalk Counseling Assistant

A young lady drove into the Uptown Minneapolis Planned Parenthood (PP) parking lot around 1:45 on Monday, July 18. She took our literature (“We’re Here for You” and “Free Help”) and I said,

## 2021 Abortion Report

(from page 4)

abortion pill business. Extrapolating from the report, it appears that Just the Pill, another Minnesota mail-order abortion pill supplier founded in 2020, killed an estimated 600 children last year.

**There were reports of five babies born alive following abortions in 2021, but they were allowed to die without medical care; these deaths appear to have been a violation of state and federal laws regarding the care of babies who survive abortion.**

About 94% of the abortions were committed before or at 15 weeks of gestation, showing that pro-life legislators must pass *strong* laws to protect unborn children from the moment of conception. According to neuroscientist Katrina Furth, “It is clear from the science that unborn children at 15 weeks’ gestation are already amazingly complex human beings. They can be treated as independent patients (*editor’s note — even undergoing in-utero surgery*), they show preferences independent from their mothers, and they have goal-directed behaviors.”

According to a July 1 press release from MCCL (Minnesota Citizens Concerned for Life), abortions in Minnesota have dropped 47% since their peak in

(continued on next page)

“Would you read this before you head in?” Teri, another sidewalk counselor, added that we could help her and her baby.

Then this lady walked to the door, where I was waiting on the other side of the fence. I asked her, “Are you here because of a pregnancy?” She said “yes.” “Do you know what you’re planning to do with it yet or are you still deciding?” “Still deciding,” she said. “Ok, make sure you hold onto that brochure,” I said. She nodded and walked in.

As she walked down the corridor, Teri walked down the sidewalk waving at her, then stood by the big round window as she checked in, then walked around to the front of PP to wave at her as she walked up to the second floor. (This PP has huge windows through which we can continue communicating with the clients as they walk towards the upstairs waiting area.)

About 3:45, this lady walked back out. As I was finishing trying to reach another client, the one who had just left pulled her car over behind me. She said, “I changed my mind. I’m keeping it.” I asked, “Were you here for an abortion?” “Yes,” she said. (So I think when she said “still deciding,” she either didn’t want to admit she was there for an abortion or she was, but was honestly on the fence.) She mentioned three times that “watching your

video is what did it for me.” (I guess either the “abortionpillhurts” video or the 4D ultrasound video mentioned in the brochures.) I offered to connect her with someone on our staff, but she declined, indicating that she would be okay. I explained the help available at the pregnancy centers in the “Free Help” brochure, and told her, “Congratulations! Have a good day.” She thanked me and left. Praise God!

### *Baby Saved in Pouring Rain!*

by Marlene R.  
Volunteer sidewalk counselor

A woman drove into the Robbinsdale clinic on Saturday, August 6. She did not take literature but we talked to her as she was going in. At 8:30, over an hour later, she drove out in the pouring rain with five abortion escorts standing in the lot. She rolled down her window and I started telling her about abortion pill reversal as I handed her the “Free Help” brochure.

I handed her more information which she seemed gladly to take so I asked her, “Did you change your mind?” She said “yes” with a smile. Then I said, “What made you change your mind?” She got a little quiet and I think she said, “It’s personal.” So I said, “Did it have anything to do with us being out here for you?” She said “yes,” smiled again and started driving, and I said, “Please get the help you need” (meaning the “Free Help” brochure) she now has.

1980 but have leveled off in recent years. Chemical abortions (the abortion pill), however, reached an all-time high of 6154 in 2021 — 61% of all abortions in the state. PP committed 70% of all abortions in Minnesota in 2021.

Also from the MCCL press release:

\* The number of abortions committed on

minors was 209, the lowest number on record.

\* A total of 221 abortions took place at 20 weeks gestation or later. The latest abortion took place at 25 weeks. (*Editor's note — The youngest baby ever to survive was Richard Hutchinson, who was born at 21 weeks and two days and went home after six months. The gestational age of*

*118 babies was not reported.*)

\* Rape, incest, and risk of impairment of a major bodily function were reasons given for less than 1% of abortions combined, 54% of women cited “does not want children at this time,” and 13% cited “economic reasons.” In 35% of cases, the reasons for the abortion are unknown or the woman declined to give a reason.

\* 41% of women had undergone one or more previous abortions.

### Pray for . . .

#### Anuja Singh

Anuja Singh, 36, is a Planned Parenthood (PP) abortionist currently being featured in pro-abortion political ads in Minnesota. On a HealthPartners Regions Hospital website, she is listed as practicing at the PP abortion mills in St. Paul, Uptown Minneapolis, Brooklyn Park and Rochester. Babies are killed at all these locations using the abortion pill and they are also killed by surgical methods at the St. Paul location. Singh also practices at the HealthPartners clinics in Apple Valley and on University Ave. in St. Paul as an ob-gyn.

We have twice sent e-mails to Singh, urging her to quit doing abortions as other physicians have done, but we received no response. Please pray that she would stop killing unborn children, stop promoting this grave evil, repent and come to Christ.

#### Listing Abortionists

A hallmark of our ministry has been confronting the evil of abortion with the love of Christ. This approach has included publicly identifying who the abortionists (and pro-abortion leaders) are. The practice of placing the names of abortionists in this newsletter has a twofold purpose: to ask for your heartfelt prayers for the conversion of those listed and to inform you so that you are not patients of those committing abortions.

The criteria for placing someone on this list is that the individual is directly

involved in committing abortions and that this has been reasonably verified. We have resoundingly condemned any sort of physical or psychological threats to anyone involved in abortion. Our desire is for the love of God to permeate the lives of those associated with abortion, that they will turn away from the harm they inflict and become followers of Christ as so many before them have done. Please pray for the following abortionists:

#### Is Your Doctor Involved in Abortions?

#### Does Your Doctor Prescribe Abortifacient Birth Control?

Ask your doctor if he/she does abortions or refers for them, or prescribes abortifacients such as the Pill, Ortho Evra (the “patch”), Depo-Provera (the “shot”), Nuva-Ring, the “morning-after pill,” implants, or the IUD. All these methods (and others) can cause very early abortions by thinning the lining of the uterus so that if breakthrough ovulation occurs (which is possible) and a new life is conceived, the young human being may not be able to attach to the uterine lining and therefore he or she dies. These methods can also be very dangerous, even deadly, to the woman. If you would like the names of completely pro-life physicians, see [www.onemoresoul.com/nfp-directory](http://www.onemoresoul.com/nfp-directory). In Minnesota, you may also call our office at (651) 771-1500.

#### Natural Family Planning

For information about the safe, effective and morally acceptable methods of Natural Family Planning (NFP), contact One More Soul at: 1-800-307-7685 or [www.onemoresoul.com](http://www.onemoresoul.com). One More Soul has resources to help people understand how children are a great blessing from God, and how contraception is very harmful to women, and their marriages, and consequently to families, Church and society.

## Killing Begins in Moorhead, Minn.

(from page 1)

were greeted with a visit by U.S. Senator Tina Smith who praised them for moving to a state that still has abortions and she proclaimed RRWC is "saving women."

The reality is that everything they did and will be doing in this abortion clinic is perfectly legal in Minnesota. They don't need a doctor or a licensed medical facility. In fact, a 14-year-old girl could go there, get an abortion, and her parents would never know about it.

We are continuing our fight in Moorhead. We held a wonderful rally Friday, August 19, with David Bereit, founder of 40 Days for Life and national pro-life speaker, joining us, along with about 200 local pro-life advocates. There are weekly prayer vigils and sidewalk counseling. We continue to build our coalition with local churches and community leaders. And, most certainly not least, we have the Creator of the Universe leading our path.

I want to end with words of hope for Moorhead and for the state of Minnesota. Last Friday, I came across a powerful Bible verse. I have had over a dozen interviews with reporters regarding Moorhead. Most of them end up asking some form of the following question, "So, other than praying, what else do you plan to do to stop them?" They wouldn't understand my answer:

*"The weapons we fight with are not the weapons of the world. On the contrary, they have divine power to demolish strongholds. We demolish arguments and every pretension that sets itself up against the knowledge of God, and we take captive every thought to make it obedient to Christ." - 2 Cor. 10:4-5*

### New Signs

Side 1

Side 2

We have created three versions of this full-color sign, including this one and one of a 6-week baby and one of a 20-week baby. This one has already helped save at least one life! Each of the three signs has "Abortion Kills a Human Being" on the back, so they are versatile depending upon the situation.

- \* 24" x 36"      \* Waterproof corrugated plastic
- \* \$15 each, plus UPS shipping
- \* Vertical flutes allow signs to be staked into ground

To see the other versions, go to [www.plam.org](http://www.plam.org) and click on "Resources". Contact [debra.braun@plam.org](mailto:debra.braun@plam.org) if you would prefer the artwork to send to your local printer to make your own signs.
